

Grundisburgh & Culpho Parish Council
Minutes of a Meeting of the Council held on the 14th September, 2026
in Grundisburgh Playing Field Pavilion

NOTICES had been posted according with regulations.

Present: Messrs. G. Caryer, J. Dunnett, M. Harris, M. Rankin, Mrs. A. Willetts,
District Councillor C. Hedgley, Councillor, County E. Bryce and 11 members of the public.

1. Apologies for absence Messrs. A. Dunnett, B. Cook, C. Dow, E. Dingman, P. Nixon,
R. Youngman, Mrs. J. Bignell.

2. To receive member's declarations of interest No interests were declared.

3. Minutes - The minutes of a Meeting of the Council held on the 13th July 2026 had been circulated and were therefore taken as read. It was proposed by Mr. Caryer seconded by Mrs. Willetts that these minutes be signed by the Chairman as a true record. 4 members voted for 1 member voted against.

4. District Councillor's Report District Councillor Colin Hedgley's September Report is published on the Parish Council's Web Site Home Page - Important Documents <https://grundisburghculpho-pc.gov.uk/>

Local Government Reorganisation (LGR) Mr. Hedgley said the LGR for Suffolk is on hold to the relief of many including the communities he represents who feared being swallowed up in a Greater Ipswich Authority.

Bin Collections The number of missed bin collections had been reduced but was still highly unsatisfactory. Many residents had stopped using the food waste bin because of irregular collections.

Planning Enforcement Is being delayed through lack of staff who are overwhelmed by the number of outstanding enforcement orders. One case is unresolved after 10 years.

Lyttleton Meadow Mr. Hedgley was asked to arrange the cutting of the road side hedge.

5. County Councillor's Report County Councillor Elaine Bryce August 2026 Parish Newsletter is published on the Parish Council's Web Site Home Page - Important Documents <https://grundisburghculpho-pc.gov.uk/>

Westerfield Quarry Mrs. Bryce continues to work with residents opposing this proposed development. An Economic Impact Report is being prepared.

Eco Power Solar Project Suffolk Conservatives continue to raise concerns over loss of farmland, battery safety, traffic, environmental impacts and the cumulative effect of energy projects. An Environmental Assessment is being prepared.

Local Government Reorganisation The future is still uncertain.

Orwell Crossing Suffolk County Council is considering six long-term options to improve resilience on the A14 around Ipswich, including a new Orwell crossing, a northern bypass and junction improvements. Mrs. Bryce has long opposed an Ipswich Northern Bypass.

6. Allotments (Local Plan call for sites) The owner requested a meeting with representatives of the Parish Council. The Clerk wrote to him on the 28th July to arrange a date. Waiting for response.

7. Culpho Project – grant application The Chairman invited Mr. Richard Garnham, St. Botolph Church Churchwarden, to give a presentation of the PCC's plans to provide Disabled Access/Toilet Facilities and Kitchenette at the church.

Aim

To provide a much-needed facility to allow an Historic Building to attract and sustain a broad spectrum of people for use in the modern era.

Present Facilities

- The building is not connected to a water supply.
- There is a provision for Disabled access into the building by means of a makeshift ramp over pronounced steps with poor uneven walkways
- Pathways leading from the car park and road entrance are not fit for purpose
- A camping type loo is in place situated in an outbuilding, inhabited by an army of spiders!
- There is no specific area to provide even basic refreshments
- No hand-washing facilities

What will the proposed Facility deliver

Given the present situation the PCC and working party are concerned without improvements the use of the building will become even more restricted as it will continue to deny attendees safe and practical facilities

At what stage is the Project

The working party has engaged with the Diocesan Advisory Committee (DAC) and arranged a site visit which was also attended by the architect Matthew Thomas. The subsequent DAC report although not given approval to a facility gave a strong recommendation to proceed with an application

The architect has drawn up provisional plans which subject to certain detail the Working party have approved, together with a forecast building cost

Funding

- Culpho Church has assets of £20,000 of Non Restricted Capital
- Viridor
- Places of Worship Renewal Fund
- Heritage Revival Fund
- East Suffolk County Council
- Advice from Emma Denton Grants advisor at Diocesan office

We are also working closely with Brian Williams who has recently spearheaded a similar project at Swilland Church and is keen to share funding opportunities. It is also important that we engage with the current users of the church and the community to become part of the project and assist with fund raising

Prior to the meeting all councillors were sent a drawing of the basic design of the project together with a full break down of budgeted costs

A grant of £30k is requested for this much needed facility

Culpho Music 2018-2026

The seeds of Culpho Music as a regular series of events were sown in the winter of 2019 when the international singers Gillian Keith and Tom Randall, whilst performing with Ipswich Choral Society and staying at Abbey Farm, fell in love with St. Botolph's Church and its special acoustics.

Gillian & Tom offered to create a concert programme with the London Viols and so the inaugural Concert of Culpho Music "Our Fairest Queen" was held on 25th January 2020. Covid put paid to further planned events but since then we have been honoured to host many professional musicians, amateur groups and a Belgium film-Maker together with a female composer and Hurdy-Gurdy player. All who have performed in St. Botolph's have been impressed with the simplicity of the church and its magical effect on sound. Latterly we have also hosted a dramatic production, published poets and sculptors.

Primarily the Church is a place of worship, a place we need to make fully accessible and comfortable for all who visit but increasingly it is seen as an historic and valuable community resource for a wide range of activities.

8. Public Open Forum

It was proposed by Mr. Caryer seconded by Mrs. Willetts, to unanimous approval, that the formal meeting be suspended and members of the public invited to address the meeting.

The following issues were raised

Dog Inn The manager has provided a brief update regarding the current situation at the pub. The pub remains closed, with efforts ongoing to secure its future and reopen as soon as possible. Further updates will be provided when available

Village Green Arrangements are being made for the resurfacing of all the paths on the Village Green.

Playing Field Pavilion It was complained that the newly installed Fire Doors were not to required standard and specifications and the Parish Council £5,000 grant was awarded without scrutiny.

Mr. Harris said the complaint was unfounded in that the doors installed were Fire **Exit** Doors not Fire Doors which had had completely different specifications which had been adequately met.. The whole Fire Safety Scheme was now completed and had passed inspection. .

The Playing Field Management Committee was contacted by Suffolk Fire and Rescue Service following a formal anonymous complaint from someone who stated they were local. The complaint raised a concern that the fire exit doors in the Pavilion were locked.

Two Fire Service officers subsequently attended on 1 September and carried out an inspection. They had been provided with a copy of the Pavilion Fire Risk Assessment (FRA) in advance.

Their official conclusion was more detailed, but in a nutshell, it was "satisfactory." They described the FRA as excellent and confirmed that all actions arising from it have been addressed.

He explained that the fire exit doors had been locked for security when the building was unoccupied, but that the FRA specifically required them to be unlocked whenever the building was occupied. That safe system was followed to the letter. Having reviewed the FRA and heard his explanation, the officers were happy with the arrangement.

The doors have since been replaced with push-bar opening doors, so that the previous locking arrangement is no longer required. The officers raised no issues and were pleased with what they saw.

Their findings will be placed on file, and they advised that they would not expect to attend again in response to any further fire safety complaint.

Finally, on behalf of the PPMC, he thanked the Parish Council for unanimously supporting the funding for the Pavilion Fire Risk Assessment and the works needed to implement its recommendations. This independent Fire Service inspection provides welcome confirmation that the measures we have had in place, and have put in place, are appropriate and that the Pavilion is being managed in accordance with the FRA.

Footway Slurry Works The recently restoration work carried out on Rose Hill and Ipswich Road is of a low quality.

Gull Lane A request for a County Council Speed Survey to aid in a request for a Speed Limit was refused as the Lane did not meet the County Council's criteria for imposing speed limits.

9. Community Emergency Plan As Mr. Dingman could not be present Mr. Caryer read his report.

I have begun preparatory work and discussions with Mike Harris, Chris Dow and Allen Dunnet, with the aim of developing a practical, community-owned Community Emergency Plan rather than simply a Parish Council document.

I intend to attend the East Suffolk/Joint Emergency Planning Unit webinar on Thursday 1 October, 5.00–6.00 pm. A second Council member would be very welcome to join me.

I also propose contacting Yoxford, Playford, Waldringfield and Great Bealings, all of which have already developed Community Emergency Plans, to learn from their experience and obtain practical examples.

The next step would then be to hold a focused working session with a core group of community stakeholders to begin drafting the Grundisburgh & Culpho Community Emergency Plan. This would consider local risks, safe places, communications, available people and resources, neighbour support and sensible boundaries around volunteer roles. Participation in the session would not commit anyone to becoming a formal emergency responder. The resulting working draft would then come back to the Parish Council for review and agreement.

10. Planning Report Mrs. Willetts reported.

10.01 Applications approved by East Suffolk Council since last Parish Council meeting.

DC/26/1413/FUL 4 Thomas Walls Close Grundisburgh . Single storey side and rear extension to house. New windows and doors, extension to double garage.

DC/25/3828/FUL Tarn Hows Woodbridge Road Grundisburgh
Drop kerb/splay, entrance total area 25sq. meters

DC/26/0024/FUL The Gables, The Green, Grundisburgh Creation of new vehicular access

10.02 Applications received since the last Parish Council meeting.

DC/26/2562/FUL Stanaway Farm Charity Lane Otley Extension and redevelopment of existing employment buildings comprising the extension to an existing B8 storage building (Unit 2), demolition of an existing B8 storage building and erection of a replacement B8 storage building (Unit 3), extension to an existing office building (Unit 5), erection of a new single-storey office building (Unit 10), together with associated access, parking and landscaping works.

The Parish Council's Planning Sub-Committee could not agree whether to object to the proposed extension of the site's B8 use. The Parish Council have received an increasing number of complaints, from parishioners, concerning the size and speed of traffic using the narrow rural roads around the village. I have already sent a detailed objection myself and I feel very strongly that the Parish Council should send an objection and suggest the wording below.

Objection to DC/26/2562/FUL - Stanaway Farm, Charity Lane, Otley

Grundisburgh & Culpho Parish Council object to this application on highway safety, cumulative impact and rural character grounds.

Charity Lane is a narrow single-track rural road with no formal passing places and is signed at both ends as unsuitable for HGVs. The proposed expansion of B8 storage buildings and office accommodation, together with 35 additional parking spaces, would intensify activity at the site and inevitably increase traffic, including commercial vehicle movements, on a road network that is plainly unsuited to such development.

The planning history of Stanaway Farm shows a gradual but significant intensification from agricultural uses towards commercial, industrial, office and B8 storage activities. Previous applications attracted objections from local councils due to concerns over increased HGV traffic, limited highway capacity and the lack of control over vehicle numbers and sizes. Those concerns remain relevant today.

The strongest evidence comes from Suffolk County Council as Local Highway Authority, which has stated that insufficient information has been provided to demonstrate that the existing private access road can safely accommodate the anticipated traffic associated with the development. The Highway Authority notes that the access road is constrained in width, has limited passing opportunities and lacks evidence showing how opposing HGV movements would be accommodated.

The applicant has also failed to provide details of the likely frequency of HGV movements associated with the proposed B8 use. Given that B8 storage and distribution activities can generate significant commercial traffic, this omission is a serious deficiency in the application.

In addition, the Highway Authority is not satisfied that the proposed visibility improvements are achievable because no evidence has been provided to demonstrate ownership or control of all land required to create and maintain the visibility splays. As a result, it cannot be concluded that the proposed highway safety measures can be delivered.

The Highway Authority has expressly stated that it cannot be satisfied that the proposal would not have an unacceptable impact on highway safety and has warned that failure to provide the requested information could result in a recommendation of refusal.

The cumulative impact of successive permissions at Stanaway Farm must also be considered. While each proposal may appear modest in isolation, collectively they represent a continuing intensification of commercial activity on a site accessed solely via a rural road that remains unsuitable for HGVs.

The proposal would also increase risks to walkers and horse riders using Public Right of Way 31 and would further erode the rural setting of the site and its Grade II listed farmhouse.

The National Planning Policy Framework supports rural employment development only where it is sensitive to its surroundings and does not have an unacceptable impact on local roads. This proposal fails to demonstrate that requirement has been met.

Planning Report cont...

Mr. Rankin, a member of the Planning Sub Committee, said he disagreed with Mrs. Willetts assertion that the Sub Committee could not agree whether to object. He maintained that a majority of the committee considered that no objections should be made. Both he and Mrs. Willetts expressed very strongly held opinions on this application until the Chairman intervened and advised them to convene a meeting of the Sub Committee to resolve the issue.

DC/26/0746/FUL Finndale House Woodbridge Road Grundisburgh Woodbridge

DC/26/0747/LBC Finndale House Woodbridge Road Grundisburgh Listed Building Consent

1. Proposed construction of new garden wall to north of property, along part of boundary with Finndale Cottage (replacing an existing leylandii hedge).

2. Proposed alterations to studio and first garden store to create ancillary living space.

3. Proposed alterations to second garden store to create new door opening on southwestern side to allow access to walled garden and creation of window opening in southeastern wall to improve light

4. Proposed subdivision of downstairs study to create new downstairs cloakroom and vestibule

5. Proposed reconfiguration of upstairs rear bathroom doorway to incorporate bathroom into an en-suite layout and

6. Proposed reduction of part of dividing wall between bedroom and ante room to leave dwarf wall, to improve useability and light in bedroom and ante room.

DC/26/2804/VOC. Hill Farm Barns Hill Farm Road Grundisburgh IP13 6RH

Variation of Condition No. 2 of DC/25/3157/FUL - Conversion & alterations of barn (including reconstruction of single storey element in North East corner) along with associated small extension on courtyard face of link to form self-build dwelling.

DC/26/2840/VOC Hill Farm Barns Hill Farm Road Grundisburgh IP13 6RH

Variation of Condition No. 2 of DC/25/3158/LBC - Listed Building Consent Conversion & alterations of barn (including reconstruction of single storey element in North East corner) along with associated small extension on courtyard face of link to form self-build dwelling - Minor amendments to layout and fenestration to accord with revision to client requirements.

DC/26/0443/FUL Retrospective Application Erection of a wall at rear 15 Post Mill Crescent Grundisburgh Planning Sub Committee of Grundisburgh Parish Council agreed to send an objection to this retrospective application.

Grundisburgh and Culpho Parish Council object to this retrospective application.

The wall is adjacent to the newly created footpath 51 on Hopkins Homes land at the top of Grundisburgh Vale. Footpath 51 links to footpath 20 on the northern edge of Grundisburgh Playing Field. It is well used by walkers, particularly dog walkers linking to other footpaths within the village. The height of the wall is particularly intrusive in this area of bungalows with modest boundary fences.

Gentleman in the picture is 5'10"

DC/26/3062/TCA. Finndale House Woodbridge Road Grundisburgh IP13 6UD

1no. Norwegian maple (1 on plan) - Fell 1no. Field maple (2 on plan) - Pollard to 2.4 metres above ground 2no.

Ash and 1no. Sycamore (3 on plan) - Fell 2no. Ash (4 on plan) - Reduce to 2.4 metres above ground 1no.

Sycamore (5 on plan) - Pollard at 3 metres above ground

11. Financial Matters

11.1 2025/2026 Audit The Audit has been satisfactorily completed and the Notice of Conclusion of Audit published on the Parish Council's Notice Board and Web Site.

11.2 Payments received since the last meeting

Business Premium Account Interest £399.59

11.3 Ratification of payments made since the last meeting and approved at the time

Doyle Electrical Services Ltd	£995.72	Pavilion heater upgrade
Mr.C.Dow	£35.99	Pavilion restoration - paint
Mr.G.Caryer	£62.50	The Rectory sign

Barclays Bank

£12.10 Administration charges 15/06/2026-03/08/2026

11.7 Balances as at 14th September, 2026

Business Premium Account	£152,381.45
Current Account	£8,743.59
VAT to claim	£2,658.89
TOTAL	£164,783.93

11.8 Budget Report attached

11.9 CIL Report attached

11.10 Financial Review A meeting of the CIL/Finance Sub Committees will be held to review the Parish Council's current financial position.

12. Roads & Transport Report Mr. Caryer reported that the Roads & Transport Sub Committee last met on the 14th August and will next meet on the 21st September.

Culpho traffic calming Awaiting installation of additional chevron sign to improved visibility when approaching from Grundisburgh.

Grundisburgh Corner Awaiting costing from County Council Highways for reinstatement of white lines at edge of road. Currently with estimating team.

20mph Policy Suffolk County Council's 20mph policy has been updated

<https://www.suffolk.gov.uk/council-and-democracy/council-news/suffolk-county-council-backs-new-20mph-speed-limit-policy-for-communities>

Assessment criteria will consider observed average traffic speeds (with existing average speeds less than 28mph), the role and character of the road, and the presence of vulnerable road users.

One or more speed surveys will be required, paid for by the Parish Council.

If a road meets the criteria, a Traffic Regulation Order process would be required, a legal process, and generally speaking this takes around 9-12 months, at a cost of around £7-11k depending on the size of the speed limit with the assumption the speed limit would be signs only.

Looking at Suffolk County Council's Highway's criteria, only Grundisburgh's village centre (with shops, pub, church, pedestrians etc.) could be considered for a 20mph limit, subject to demonstrated community backing and county councillor support. The Sub Committee recommends that the Parish Council does not seek a 20mph limit for the village centre.

Gull Lane As Suffolk County Council's Highways Department have already confirmed that Gull Lane does not meet the criteria for 20mph or 30mph limits, commissioning a speed survey would not change that position and would not be a responsible use of Parish Council Funds.

Road Signage Latest guidance from Highways: Department.

Community Self-Help enables the Parish Council to clean signs at no cost.

If mandatory or warning signs are faded or broken, they are generally replaced and should be reported online.

If signs are directional or village signs, they are replaced but would require funding from the Parish Council.

Next Step Carry out a survey of signage.

13. Footpaths & Environment Report In Mr Dingman's absence Mr. Caryer presented his report. Over the past two months, matters raised or progressed have included:

- Lyttleton Meadow: the recent litter complaint and clearance; wildflower seeds donated by East Suffolk Services and passed to Chris Dow; and the need to confirm their use and any further conservation-management action.
- Lyttleton Meadow James Baker – Greenways, has produced an excellent report concerning the future management of the conservation area which will entail a considerable amount of work on the trees. Forwarded to East Suffolk Services
- Millennium and Lyttleton Meadows: the annual Greenways grant and recent maintenance, insurance and brush-cutter expenditure. We also considered the recent free-tree offer, although both conservation areas appear already to have substantial tree cover.
- Footpaths: the £17,201 CIL allocation for the proposed footpath and crossing on Stoney Road. Recent planning matters have also raised the protection and safety of Public Right of Way 31 near Stanaway Farm and Footpath 51, which links to Footpath 20 at Grundisburgh Vale.
- Other environmental matters: continuing river-water testing and the recently discussed policy concerning commercial notices on The Green.
- New Community Notice Board to be installed at the Old Forge Stores.

Mr. J. Dunnett raised his concerns about the condition of several trees in St. Mary's churchyard which he considered urgently needed the attention of a tree surgeon. The Parish Council's Tree Warden will be asked for his advice.

14. Village Maintenance Report Activities are expected to resume in October.

15. Public Open Forum It was proposed by Mr. Caryer seconded by Mr. Harris to unanimous approval, that the formal meeting be suspended and members of the public invited to address the meeting. No issues were raised

16. Items for next meeting No items were suggested.

17. Any other business

2026 Council Meetings 9 November Parish Rooms starting at 7.00pm..

2027 Council Meetings 11 January March 8 May 10 July 12 September 13 November 8

18. Co-option of a member for Grundisburgh (closed session)

It was agreed that Mrs. Rosalynn Claxton should be coopted as a member for Grundisburgh
